

On Fire For God, POPULATING THE KINGDOM

-Rev. Tony **AKINYEMI**

John answered, saying unto them all, I indeed baptize you with water; but one mightier than I cometh, the latchet of whose shoes I am not worthy to unloose: he shall baptize you with the Holy Ghost AND WITH FIRE: (Luke 3:16 KJV)

One of the most profound revelations that John the Baptist made regarding our Lord and Saviour Jesus Christ was that He would baptize those who believe in Him not only with the HOLY GHOST, but also with FIRE! Fire Power is needed in evangelism and soul-winning. It is needed to purge and refine the one to evangelize and burn off all dross in his or her life as much as it is needed to embolden and give passion and zeal, a sense of urgency. Equally, this fire power is needed to melt ice-cold hearts of unbelievers so they could hear, understand, believe and respond appropriately to the gospel. The fire is also needed to consume enemies of the gospel, casting them out of the way to enable people respond to the gospel. So, as we can see, everyone needs this FIRE dimension of ministry. The believer needs it to refine and embolden for ministry, the unbeliever needs it to melt the ice in his or her heart and burn off every resistance to the gospel in his or her mind, while the fire is handy to deal with demonic forces and powers with superior fire power to make them get out of the way so people held bound by Satan can be liberated and be saved, delivered and healed.

But ye shall receive power, after that the Holy Ghost is come upon you: and ye shall be witnesses unto me both in Jerusalem, and in all Judaea, and in Samaria, and unto the uttermost part of the earth. (Acts 1:8 KJV)

We need more FIRE these days than ever before. Many believers are already cold. May the zeal of His house consume us again. May revival fire break out again in our land and particularly in our midst. May we all be on fire for God in our prayer lives and in evangelism and soul-winning.

And the lord said unto the servant, Go out into the highways and hedges, and compel them to come in, that my house may be filled. (Luke 14:23 KJV)

The Spirit has been QUENCHED in some quarters. Fresh FIRE must break out again in those quarters.

Quench not the Spirit. (1 Thessalonians 5:19 KJV)

Why not ask God for FRESH FIRE in your bones. When the fire of the Holy Spirit begins to burn and blaze in your bones, you will definitely not be able to sit down still and be laid back. This fire compels and propels. If you see a believer that is not zealous and is just comfortable with the routines of going to church merely to say 'Amen' to prayers prayed in church, only to return home and go through the routine of daily work, then know that such a believer carries no fire. No one can keep fire in his bones and sit still. Why not ask for some FIRE IN YOUR BONES right now. Hear what the Prophet Jeremiah said:

But if I say I'll never mention the Lord or speak in His Name, His Word burns in my heart like a fire. It's like a fire in my bones! I am worn out trying to hold it in! I can't do it! (Jeremiah 20:9 NLT)

May God's fresh fire burn in all of our bones more intensely. Amen.

Let us all wake up to more prayers of INTERCESSION for lost souls with the view to bringing them into the kingdom before the trumpet sounds, when it will be too late. Let us also sacrifice our time to disciple young believers, following them up and travelling in prayers for them till Christ is fully formed in them (Galatians 4:19). We particularly appeal to all TSF Satellite Centre leaders to make the follow-up of brethren their SUPREME TASK. The Lord will definitely bless your works and labours of love.

Shalom & Mega Blessings.

RECIPE FOR HEALING, HEALTH, LONGEVITY

a) ANTIBIOTICS, PROBIOTICS & VITAMIN B COMPLEX

By Tony Akinyemi

In most Western countries, antibiotics are routinely mixed with animal feeds of even healthy livestock to encourage weight gain. In fact, in the WHO Press Release of October 20, 1997, the World Health Organization had to call for a ban on the routine feeding of antibiotics to livestock. Countries like Canada, the U.K., Germany, Holland, Denmark, Sweden, and Finland, have already stopped the practice, but some countries, such as the United States, still continue with the practice. Again, because of the crowded nature of farm animals in factory farms, outbreaks of infectious diseases are common. So antibiotics have to be routinely administered to the animals to keep them alive.

Cows are not supposed to be milked within 48 hours after they receive antibiotics. Unfortunately, we cannot be too sure that farmers, for economic reasons, would adhere to this regulation. Thus, when cows are milked less than 48 hours from the time they receive antibiotics, these drugs find their way into the milk. For example, on February 13, 2002, the Food and Drug Administration in the USA announced that Sozinho Farms, a California dairy farm operation, agreed to pay a \$140,000 fine because their cows, sold to slaughterhouses, tested positive for antibiotic residues. Sozinho Farms was subsequently prohibited from selling meat from their antibiotic-filled cows, but their milk continued to reach supermarkets, and ultimately, human bodies – especially children's bodies. Sadly, those who ingest such milk are also ingesting the antibiotics on a daily and long-term basis. A report from the Union of Concerned Scientists stated that roughly 70% of total USA antibiotic production (i.e. about 25 million pounds of antibiotics) are fed to animals (chickens, cows, and pigs) for non-therapeutic purposes like growth promotion. These antibiotics may cause allergic reactions in some people – e.g. asthmatic attacks, sneezing, skin rashes, and so on – or antibiotic resistance.

All medical professionals agree to the fact that prolonged use of antibiotics is dangerous to health. Regular

consumption of cow milk may therefore mean that you are inadvertently ingesting antibiotics regularly in your diet over a period of many years. The implications are very dire. Antibiotics are administered to you when you have an infection. They are not meant to be used for more than a few days. They are meant to kill the bacteria that have infected your body. But your body also houses some good bacteria that live especially in your large intestine. These bacteria (your intestinal flora) are placed there by God to do some good jobs for your good health. First, they are responsible for the manufacture of cobalamin (Vitamin B12) in your body. Vitamin B12 producing bacteria are in the Cyanobacterium (algae, mosses) family. These bacteria generally require and live in the sunlight and/or oxygenated environment of the plant surfaces, roots, and upper soils and in the waters (near surface). They do not survive in the black dark anaerobic environment of interior animal tissues – though their metabolic excretions, including the vitamin B12 compound group, do and is accumulated and concentrated in herbivorous animals (in faecal material, intestines, etc.). From there, it is delivered into all body tissues, blood, muscles, entrails - especially the liver and kidneys. The molecular structure of vitamin B12 (cobalamin), the most complex of all known vitamins, was announced in 1955 by several scientists, including British biochemists A. R. Todd and Dorothy Hodgkin. In 1973 the vitamin was reported to have been synthesized by organic chemists.

Vitamin B12 is one of the most important B vitamins that we all need. B12 deficiency can result in many health problems. Vitamin B12 is important for maintaining the myelin sheath that surrounds and protects the nerve fibres, as well as for normal blood cell growth. Vitamin B12 deficiency therefore may result in neurological problems, anemia, tiredness, etc. Nerve signals travel through muscles at speeds as fast as 200 miles per hour (approximately 320 kilometers per hour).

Continued on pg 3.

RECIPE FOR HEALING, HEALTH, LONGEVITY

WELLNESS

The myelin sheaths around the nerves of infants do not get fully developed until about the age of 5. This is why infants easily suffer from convulsions when their body temperature is raised. The brain puts out enough electric power that can light a 20-watt light bulb. According to John Lust in the introduction of his book, DRINK YOUR TROUBLES AWAY, "If every nerve in the human body were placed end to end, they would extend more than 2,000 miles in length."

The B vitamins are called Vitamin B complex. It includes:

- Thiamine (Vitamin B1),
- Riboflavin (Vitamin B2),
- Niacin (Vitamin B3),
- Pantothenic acid (vitamin B5),
- Pyridoxine (Vitamin B6),
- Biotin (Vitamin B7 or Vitamin H),
- Folic acid (Vitamin B9),
- Cobalamin (Vitamin B12),
- Etc.

The missing numbers in the above list are Vitamins B4, B8, B10 & B11, which are generally no longer regarded as vitamins:

- Vitamin B4 (also known as adenine)
- Vitamin B8 (also known as inositol)
- Vitamin B10 (para amino benzoic acid – PABA)
- Vitamin B11 (also known as salicylic acid)

They are no longer labeled as vitamins because they no longer fit the official definition of a vitamin; essential and required for normal human growth and are required to be obtained by diet because they can't be manufactured by the human body. However, many are still in use and recommended for a variety of health needs as other nutritional supplements.

The entire B complex works synergistically to nurture and heal the entire body. Perhaps the most vital of the functions of the B complex is metabolizing carbohydrates, fats, and proteins. This is responsible for much of our energy, healthy skin, retardation of hair loss, prevention of early greying of our hairs, toxic-free systems, and many other benefits.

Vitamin B12 improves energy, mental clarity and emotional balance. It may also benefit our bones. A new study found that Vitamin B12 and folate supplements may help stroke patients to reduce their risk of hip fractures. During the study, stroke patients were given folate and Vitamin B-12. The patients' levels of toxic homocysteine dropped dramatically – a 38 percent decrease. And only six patients fractured their hips during a two-year period, much less than the 27 people in the control group who did not receive the supplements. People who didn't get the supplements also had homocysteine levels that were 31% higher. The study was published in the March 2005 issue of the Journal of the American Medical Association.

According to the April 2003 edition of the American Journal of Gastroenterology, researchers at the University of Milan conducted a study that concluded that supplementing with vitamin B6 might help to reduce the risk of thrombosis (blood clot). Another study in the New England Journal of Medicine indicates that elevated blood levels of the amino acid homocysteine, already considered a risk factor for Cardiovascular disease, are associated with an increased risk of developing Alzheimer's Disease. Homocysteine can be reduced by increasing one's intake of Vitamin B-12, B-6, and Folic Acid. These three in particular work together synergistically. The B vitamins generally lower homocystein levels, provide mental clarity, emotional balance, and a burst of energy and stamina.

The B vitamins are also the nerve vitamins. Vitamins B6 and B12 in particular respectively help boost the immune system and energize us. While Vitamin B6 is available in whole grains, Vitamin B12 is a little harder to come by. That is why many people are Vitamin B12 deficient. The human body's need for Vitamin B12 is very minimal, yet vital. There are other B vitamins that are still being contested by some scientists. One of such is Vitamin B17, or laetrile, found in African citrus seeds, apple seeds, and especially apricot kernels. Vitamin B17 is one of the main components of the B17 Metabolic Therapy employed by some alternative Cancer Therapists to cure cancer.

b] Raw Cream of Carrot-Sweet Potato Soup

Culled from https://www.myhdiet.com/healthnews/rev-malkmus/nutrient-rich-spring-soup-recipes/?utm_source=exacttarget&utm_campaign=Top+News+This+Week+at+Hallelujah+Diet+-+NEW+VERSION+x+-+20200307&utm_medium=email&utm_term=&utm_content=
[Viewed on Sat Mar 7, 2020]

Ingredients:

- 4 CARROTS
- 1 small ONION
- 1 home-made BULLION CUBE (No MSG)
– see July-August Bulletin
- 1 Small SWEET POTATO
- 3 pinches fresh NUTMEG
- 1/2 cup RICE MILK
- 3 cups of hot water

Sweet potato and carrot soup is rich in nutrients. Sweet potatoes make for a great source of fiber and are filled with manganese and vitamins A and C, according to Dr. Axe. This healthy form of carbohydrates has been shown to even blood sugar levels, help with weight loss and provide lots of antioxidants.

Directions:

Chop and dice carrots, onion and potatoes before blending. Combine all ingredients in a good blender and blend until smooth. The hot water and blending will help to make this soup steamy and smooth. Serve warm and enjoy.

RECIPE FOR HEALING, HEALTH, LONGEVITY

The point I am trying to make is that our intestinal flora (bacteria) is there to help manufacture Vitamin B12, among other functions. Our GI tract is inhabited by an incredibly complex array of between 400 and 500 species of micro-flora. These micro-organisms coexist in harmony as long as the proper balance is maintained. (An imbalance of the bacterial flora in the GI tract is called dysbiosis). However, when we take antibiotics, the medication does not know the difference between good bacteria and bad bacteria. It simply goes ahead to kill and wipe out all bacteria in our system – good and bad! Once the bad bacteria are killed, the infection clears up and we are happy. But then, we have just created a new problem. The implications of killing the good bacteria are many. First, the production of Vitamin B12 is hampered. Second, apart from producing Vitamin B12 the good bacteria in the large intestine are also there to checkmate yeast, so that they do not overstep their boundaries. With the good bacteria killed, yeast or fungi begin to overgrow in the system, leading to a condition called candida or yeast overgrowth. Often, this would require your doctor prescribing an antifungal drug for you to combat this new menace; and the cycle goes on and on. This is apart from the side effects of the medications themselves and the extra burden placed on your already overlaboured kidneys in trying to excrete the drugs out of your body. Do you now see why drinking cow milk loaded with antibiotics is not advisable?

CONFESSION CAPSULES:

September 2020 Confession Capsules: On Fire For God

The zeal of God's house has consumed me. I am full of the Holy Ghost. I'm loaded for my divine assignment. I am on a mission on earth. I cannot sit still and be laid back. I'm all out for God. I am prayerful and fervent in spirit. I am a soul winner and discipler. I carry FIRE IN MY BONES. I cannot keep quiet. I will preach the gospel at every opportunity throughout this week. So help me God.

October 2020 Confession Capsules: Populating The Kingdom

God wants His house to be filled with souls such as are being saved. God does not want any sinner to die in their sins and go to hell. God so loved the world that He gave His only begotten Son to die for the world. I am a trustworthy and trusted partner with God in proclaiming the gospel of the kingdom in the power of the Holy Ghost. I am a soul-winner per excellence. I will work towards winning at least one soul for Jesus this week. So help me God.

SEPTEMBER 2020

MANGER LESSONS

Lesson 1: Be On Fire Doing The Work Of An Evangelist

Text: 2 Timothy 4:5: "But you be watchful in all things, endure afflictions, do the work of an evangelist, fulfill your ministry."

INTRODUCTION:

In Matthew 10: 6—8, our Lord, Jesus Christ sent all His disciples (you & I inclusive), (a) to the lost sheep of the house, (b) to preach to them that the Kingdom of God is at hand and (c) to heal them of their diverse sicknesses and diseases. Simply put, soul winning and evangelism are the key ingredients for which every believer is called to salvation and full ministry. That is why we are called to bear fruits into the Kingdom; and that these fruits may remain and also yield further fruits (John 15:16).

DISCUSSION:

- How many people have you witnessed to in recent times?
- Consider all the 'first timers' to the Church since January, 2020 to date... ..;
- How far have you been able to follow them up and follow them through?
- How many of them have been retained through your own personal efforts?
- In summary, to what extent have you fulfilled your ministry?

Kindly ruminate deeply over all these questions; and examine yourself with a view to adjusting where necessary, going forward. Come what may, you just must be on fire for God in evangelism and soul winning from now henceforth.

CONCLUSION:

Whereas there is an Evangelism Unit in the Church, please note that the business of evangelism is for all church members – male & female, old or young, rich or poor. You have a role to play. Therefore, from now henceforth, you should be on fire for God in these respects.

Lesson 2: Three (3) Ways To Re-Ignite Your Fire for Evangelism/Soul Winning (1)

Text: John 9:25 "He answered and said, "Whether He is a sinner or not I do not know. One thing I know: that though I was blind, now I see."

INTRODUCTION:

Once upon a time, a man that was born blind received his sight back through the miraculous ministration of our Lord, Jesus Christ. (John 9: 1—7). He received his sight at an adult age; so, many people had known him from childhood as a blind man. Thereafter, his neighbors who had always known him when he was blind questioned him variously to know how his blindness was healed. Of course, he told them the truth: that Jesus Christ healed him; but they found it very hard to believe (John 9: 8—34); until Jesus Christ later came to show up Himself as the Son of God who must be believed. (John 9: 37).

DISCUSSION:

- Every believer has a minimum of one testimony to tell others. Have you shared yours with anybody at all?
- If you have, when did you share your own experience/testimony last?
- How often do you do this; and how recently was the last one you shared?

CONCLUSION:

There is tremendous power in sharing our testimony. It can encourage others and convert their souls to a great extent. Therefore, as a believer, be bold enough to share your testimony with others at the slightest opportunity. Remember: "He who believes in the Son of God has the witness in himself; (1 John 5:10a)."

OCTOBER 2020

MANGER LESSONS

Lesson 1: Pray for those who don't know Jesus Christ yet.

Text: Romans 6:17 "But thanks be to God, that you who were once slaves of sin have become obedient from the heart to the standard of teaching to which you were committed."

INTRODUCTION:

Whether you know it or not, your own personal salvation story, whatever it was, must have come as a result of some brethren praying for you. Yes! So, there are few facts about unbelievers that need to be brought to the open, e.g.:-

1. Unbelievers may think that they are free, but they are in fact enslaved. They are slaves of sin, and are bound by their sin and sinfulness. Pray that God would liberate them by His gospel.
2. Unbelievers have been blinded by Satan (2 Cor. 4:4); and will only ever be able to see and appreciate the gospel if God works within them. So pray that God would give them sight—spiritual sight, in order to see the light in Jesus Christ..
3. Unbelievers cannot repent without the enabling grace of God. So pray that God would grant them repentance; that this repentance would lead them to a knowledge of the truth.
4. Pray as well that unbelievers would come to their senses eventually; and that they would escape from the devil's snare ultimately. (2 Tim 2:25-26).

DISCUSSION:

Please let us all discuss the following fundamentals at our different Satellite Service Centres:

- Groaning and travail of soul are elements of prevailing, intercessory prayer.
- Persistence and perseverance are usually required.
- These elements of intercession are often extensions of praying in tongues.

CONCLUSION:

Finally, let us all develop a burden for souls – lost souls to be converted into the Kingdom of God. Let us keep the fire burning (Lev. 6: 8—13) with the Gospel of Christ. Let us depopulate the kingdom of darkness and populate the Kingdom of God.

Lesson 2: Fund the Church's purse for the Gospel's sake:

Text: 1 Chron. 21: 24—25 "Then King David said to Ornan, "No, but I will surely buy it for the full price, for I will not take what is yours for the Lord, nor offer burnt offerings with that which costs me nothing." 25 So David gave Ornan six hundred shekels of gold by weight for the place."

INTRODUCTION:

Without doubt, evangelism and soul-winning requires that money must be spent. Indeed, money is the "vehicle" of the gospel. That great commandment: "GO YE" (Matt. 28:18--19) is a commandment of MOTION. It requires movement by anyone who wants to obey it. The complying believer needs to move around and about! And depending on the distance to be covered, this movement is either by our human feet (walking, trekking or running) or by other means of transportation -- e.g. bicycle, motor-cycle (Okada), commercial bus, taxi, private car, rented car, kabukabu, ferry, ship, speed boat, airplane or helicopter, private jet, etc.

Most often, those who can do it physically may not have the financial resources to underwrite the financial expenses in order to achieve the required successful end-result.

So, if God has endowed you with some financial resources, you can earmark a little portion of it to specifically fund the Gospel. (This is quite different from the general offering that everybody gives in the church; or from where the church earmarks a particular percentage for evangelism).

DISCUSSION:

- Are you ready to commit your funds specifically to the Gospel?
- If so, please, see the Snr. Pastor privately;
- And the Almighty God will bless you more and more, in Jesus' name, Amen.

CONCLUSION:

Evangelism and soul winning are special calls to service. We must all be involved in it. Be wise, save a soul from perishing today. Fulfill your ministry. Be on fire for God in these respects. Populate God's Kingdom; and God will bless you greatly as you comply, Amen.

Welcome Back

TSF POST COVID-19 CHURCH

1 HAND WASHING/ SANITIZING STATIONS
have been created to ensure that every worshipper is well sanitized before gaining entry into the WORSHIPITORIUM.

2 PHYSICAL DISTANCING
The seats within the WORSHIPITORIUM have been rearranged to fit the physical distancing rule. However, Families may sit together if they so wish. This option has also been put in place.

3 SERVICE
Physical services will be held on Sundays only for now and will be comprised of, at most, only 50% of our seating capacity

4 #MASKUP
We encourage you to always put on your nose mask in your environ and to church as well

ATTENDANCE

Welcome

COVID-19

TIPS TO CONSIDER
for Post COVID-19 Church CODE OF CONDUCT.

COVER YOUR MOUTH WHEN YOU COUGH
Do remember to cover your mouth with your elbow when you cough.

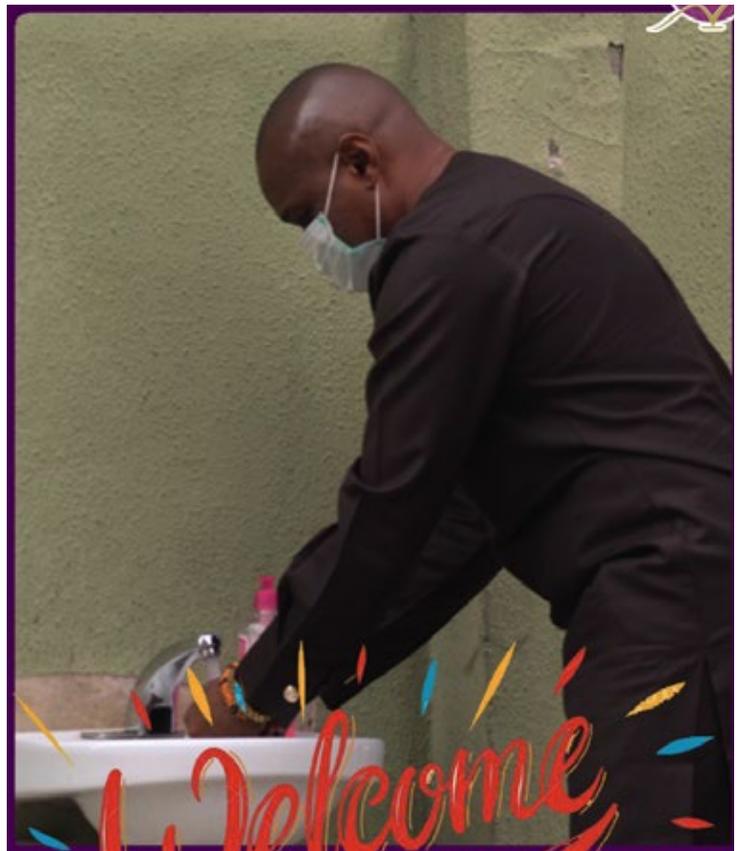

WASH YOUR HANDS
There are hand washing and sanitizing stations around you. Please use them.

ATTENDANCE WILL BE ONLY 50% OF THE CHURCH'S SEATING CAPACITY

#MASKUP

ATTENDANCE

WELCOME TO ENTRY

Welcome

HOW TO BE BORN AGAIN

- Acknowledge that you are a sinner needing salvation (Romans 3:23)
- Repent of your sins and forsake them (Luke 13:3; Proverbs 28:13)
- Receive Jesus Christ as your Saviour and Lord (John 1:12)
- Believe in your heart & confess with your mouth that Jesus is Lord (Rom. 10:8-10)
- Pray this simple prayer by faith:

Lord Jesus, I repent of my sins and open my heart today to receive you as my Saviour and Lord. Forgive me and save my soul. Make me a child of God. I thank you for answering my prayers. I believe I am born again. I am now a child of God. Amen.

Next, look for a Bible-believing church and worship God there with fellow believers in Christ. There you will be nurtured to grow in grace and in the knowledge of God. If you do not know where to go, we welcome you to join us at THE SHEPHERD'S FLOCK International Church. Your life will never remain the same again.
